Chairman **Alberto Bombassei** stated: *“In 2017, Brembo clearly demonstrated its ability to swiftly exploit the new strategic investments in countries identified as priorities in pursuit of continuing growth and development of products in collaboration with our customers. At the same time, constant innovation of existing plants and processes continued and our product portfolio expanded further, driven by our constant focus on cutting-edge research and its actual application to materials and*

braking systems capable of meeting — and often anticipating — the needs of an automotive market in the midst of a rapid transformation. I also believe that it is now finally possible — on the strength of the long series of positive signs that continued during the reporting year — to consider the resumption of growth in the South American markets on which Brembo operates to have gained greater stability.”

Executive Deputy Chairman **Matteo Tiraboschi** stated: *“I feel it is especially important to draw attention to Brembo’s very positive performances, also in light of its considerable investments, which in 2017 reached an all-time record level. The Group will see a new cycle of investments brought to conclusion in 2018, and in particular the completion of the plants announced in Mexico, Poland and China, which will gradually become operational over the course of the year. This is yet further proof of the solidity of our core business. We are also satisfied with the further reduction of our net financial position compared to the figure at 30 September 2017, despite significant investments. This is proof of the Group’s ability to self-finance.”*

All the segments in which the Group operates grew in 2017: the car applications sector closed the year with an 8.9% increase compared to 2016. Sales in North America (USA, Canada and Mexico) — Brembo’s top market accounting for 25.3% of total sales — reported a 2.5% decrease, chiefly due to the depreciation of the dollar. Net of that effect, the year-on-year change was -0.8%.

South America (Argentina and Brazil) increased by 17.6%.

The main Asian markets performed very well, with China up 34.2% (on a like-for-like consolidation basis, following the acquisition with effect from 1 May 2016; revenues rose by 23.4%).

A good performance was also reported in India (+27.2%), whereas Japan decreased by 3.6%.

In 2017, the cost of sales and other net operating expenses amounted to €1,560.8 million, with a 63.4% ratio to sales, down in percentage terms compared to 64.0% for the previous year.

Personnel expenses amounted to €436.1 million with a 17.7% ratio to revenues, slightly increasing from the previous year’s figure (17.0% in 2016).

Workforce at 31 December 2017 numbered 9,837, an increase of 795 compared to the previous year (9,042). This increase reflects the expansion of the Group’s production capacity at the global level.

Net interest expense amounted to €10.9 million for the year ended 31 December 2017 (€15.4 million in 2016) and consisted of net exchange losses of €1.6 million (net exchange losses of €5.5 million in 2016) and net interest expense of €9.3 million (€9.9 million in the previous year).

Pre-tax profit was €335.5 million, compared to €312.2 million for the previous year. Based on tax rates applicable under current tax regulations, estimated taxes amounted to €67.6 million, with a tax rate of 20.2%, compared to €69.2 million in 2016 (tax rate of 22.2%). Said reduction is chiefly attributable to the lower US taxation.

Net profit for the year amounted to €263.4 million, up 9.5% compared to €240.6 million in 2016.

Net financial debt at 31 December 2017 was €218.6 million, increasing by €22.9 million compared to 31 December 2016 (€195.7 million) and with a €31.8 million reduction compared to 30 September 2017 (€250.4 million).
