

ENDURANCE RECORD SET BY BREMBO RB 340 PADS: 24 HOURS AT LE MANS WITHOUT STOPPING

Brembo recorded an extraordinary performance and a scintillating victory at the Le Mans 24 Hour race in the GTE Am category, as the n° 50 Corvette of Larbre Competition took first place using Brembo RB 340 pads.

Once again, Brembo underscores its reputation as a top brand, and as the supplier of a product that can make the difference: the brake pads on the Corvette driven by Bornhauser, Lamy and Canal were not changed even once throughout the entire duration of the famous race, and the car maintained a gap of between 10 and 40 seconds over its nearest pursuer for almost 20 hours

This is the first time that a GTE car equipped with Brembo pads has completed and won the Le Mans event: 329 laps covering 4423 km, and not a single change of pads — a truly remarkable achievement

Team Larbre Competition were particularly appreciative of the RB 340, which delivered stable levels of performance throughout the race, especially during the colder night hours. Significantly, Pedro Lamy (former Formula 1 driver) produced his best lap of 3.58.534 during the latter stages of the race, proving that even under the least advantageous conditions, these Brembo pads were able to guarantee outstanding quality and performance.

The entire 24 hour Le Mans race — this year in its 80th edition — was characterized by the domination of Brembo equipment, both in the general classification, with the two Audi R18 e-tron quattros and the Audi R18 Ultra; and in other categories too: victory in the GTE Pro class with the success of the Ferrari 458 raced by AF Corse, and second and third place in the LMP2 category

About Brembo SpA

Brembo SpA is the world leader and acknowledged innovator of the disc brake technology for automotive vehicles. Brembo supplies high performance brake systems - for the most important manufacturers of cars, commercial vehicles and motorbikes worldwide - as well as clutches, seats, seat belts and other components for racing only. Moreover, Brembo is also a leader in the racing sector and has won more than 200 championships. Today the company operates in 15 countries of 3 continents, with 35 production and business sites, and a pool of more than 6700 employees, about 10% of whom are engineers and product specialists active in the R&D. 2011 turnover is € 1,255 million.
