

PRESS RELEASE

Stezzano, 25 October 2010

For immediate release

The Merger of Marchesini SpA into Brembo SpA was approved

Following up to the press release issued on 16 September 2010, the Boards of Directors of the respective Companies approved today the merger of Marchesini S.p.A. in Brembo S.p.A.

The merger will have no economic nor financial effect on the consolidated Balance Sheet of the Brembo Group, as Marchesini S.p.A. is already 100% owned by Brembo S.p.A.

The project is part of a wider plan of corporate streamlining and reorganisation started by the Parent Company Brembo S.p.A. with the aim of achieving further flexibility of business processes and cost efficiencies.

Production activities of Marchesini SpA are already carried out at Brembo plant in Curno (Bergamo, Italy), where high performance and racing applications are manufactured.

The proposed reorganisation project will allow a better integration of R&D activities in order to boost product innovation. The streamlining of production and logistic processes, moreover, will result in a better Customer service and an enhanced market presence.

The manager in charge of the Company's financial reports, Matteo Tiraboschi, declares, pursuant to paragraph 2 of Article 154-bis of Italy's Consolidated Law on Finance, that the accounting information contained in this press release corresponds to the documented results, books and accounting records.
